21 November 1979

NOTE FOR:

SUBJECT: Additional Work Commitments
for

1. I would like to work with on PAO's study of "COMINT in the Third World." It should be both an interesting and useful effort, particularly if precise areas can be defined where additional collection capabilities will enhance analysis and production.

2. However, I am tied up in a number of other studies at the moment, as follows:

- Completion of NDC Product Evaluation study for PAO due 30 November. Deadline will be met.
- Write and coordinate report of the Bibliographic Index working group for IRO. Due mid-January.
- Assist Selection Committee for Exceptional Analyst Program by preparing criteria for selection and initial ranking. For PGO. Due by 30 November, with additional assistance possibly necessary following 30 Nov.
- Act as RMS action officer to coordinate and plan study of "Secure Communications for Decisionmakers" as requested of IRO by DCI. A long term effort, deadline not official.
- I am personally interested in PAO's "Production Analyst" study and would like to kabitiz on that, occasionally.

Pat,

The date on the satellite replacement action is OK. Additional items to which I am committed are:

- 25X1 1. [] follow-on — real-time support to [] 25X1A
25X1 on [] recovery actions between now and mid-January (?)
Includes technical analysis of [] 25X1
and satellite utilization policy.

2. Manpower Support for Treaty Monitoring — hopefully this will be over by end of January and my involvement will be ended even sooner, but I won't know until after 5 December.

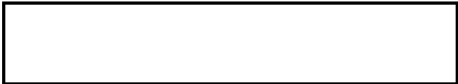

[] 25X1A

ILLEGIB

25X1A

1. development of the DCI's memorandum for the Congressional Committees on the DOD/DCI test program.
2. HS-16/15/14 pencils
3. preparation of DCI testimony on the DOD/DCI test program.
4.  (MAR 80)

25X1
